

TAPSNAP™ SNAPCAST

A multi-screen, social media application.

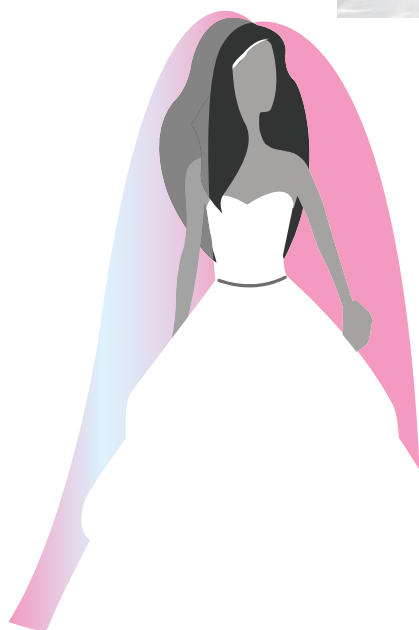

Share your unique hashtag to populate SnapCast's dynamic social media wall with pictures and tweets live from your wedding with TapSnap, Twitter, and Instagram.

Collect and live stream guest photos with your SnapCast slideshow on TV's* and projection screens around your venue to create an interactive photo album.

Immediately share your wedding album with friends and family unable to attend with your special SnapCast URL so anyone, in any location, can follow along

The Screen

100% customizable, personalize the banner to display your monogram logo, date, hashtag, and background throughout the event. Choose your photo transition mode.

The Logo

Display your monogram logo and special date.

The Hashtag

Your wedding-specific, personalized hashtag will populate SnapCast with all your special moments.

The Album

Stream up to 50 pictures at a time in the live photo feed. Pin 5 of your favorite photos, like pictures from your childhood, or funny family memories to stay in continuous rotation.

The Dashboard

Review event photos here to approve them for the SnapCast slideshow.

The Exclusive URL

The perfect touch for friends and family unable to attend, remote guests can view your SnapCast slideshow and participate using your hashtag.

*720p minimum, 1080p recommended. HDMI/DVI required.
Ask your venue for details, they almost always have a screen available for you to use!
